

In memoriam Prof. Dr. med. Jean-Paul Obrecht:

13th Annual EuCC Symposium

Clinical and Experimental Oncology

Friday, May 19, 2006

Haus "*Zur Lieben Hand*", Löwenstr. 16, Freiburg

9:00 Introduction (H. Veelken)
Eulogy to Prof. Dr. med. Jean-Paul Obrecht (R. Herrmann)

SESSION I: INNATE IMMUNITY AND IMMUNODEFICIENCY
Chairmen: C. Peters, C. Moroni

09:15 Fisch, P., Freiburg:
"Molecular and functional analysis of gamma/delta T cell expansions in immunodeficient patients"

09:40 Kalberer, Ch., Basel:
"NKG2D receptor - mediated recognition of leukemia by Human Natural killer cells"

10:05 Christopoulos, P., Freiburg:
"Systemic immune dysregulation in untreated patients with solid indolent B-NHLs"

10:30 Coffee break

SESSION II: TUMOR-SPECIFIC IMMUNOTHERAPY
Chairmen: H. Veelken, J.E. Kurtz

11:00 Bracci, L., Basel:
"IFN- α derived DC are potent cellular adjuvants for the generation of cytotoxic immune responses"

11:25 Binder, M., Freiburg:
"The epitope recognized by rituximab"

11:50 Provenzano, M., Basel:
"Identification of immunogenic T cell epitopes against the main regulatory protein large T antigen of the putative oncogenic BK polyomavirus"

12:15 Feder-Mengus, Ch., Basel:
"Impaired immunorecognition by cytotoxic T lymphocytes specific for tumor-associated antigen of melanoma cells cultured in MultiCellular Tumor Spheroid"

12:40 Lunch

SESSION III: MOLECULAR ONCOLOGY

Chairmen: P. Fisch, R. Herrmann

- 13:45 Marone, R., Basel:**
"Phosphoinosite 3-kinase in melanoma"
- 14:10 Mern, D., Freiburg:**
"Functional analysis of ID1-induced centrosomal abnormalities in view of their therapeutic susceptibility"
- 14:35 Ayoub, Ch., Straßburg:**
"Functional analysis of the B14, a gene overexpressed in cancer"
- 15:00 Kunz, Ch., Basel:**
"Involvement of thymine DNA glycosylase in DNA based cytotoxicity of 5-fluorouracil"
- 15:25 Pfeifer, D., Freiburg:**
"Genome-wide analysis of DNA copy number changes in CLL using high-density SNP arrays"

15:50 Coffee Break

SESSION III: CELLULAR DIFFERENTIATION AND ENVIRONMENT

Chairmen: R. Mertelsmann, P. Dufour

- 16:20 Calon, A., Straßburg:**
"The homeobox gene CDX2 in a murine model of inflammatory bowel disease and associated colorectal cancers"
- 16:45 Sreseli, R., Freiburg:**
"Proteomic profiling in lung cancer with SELDI-TOF MS"
- 17:10 Buess, M., Basel:**
"Evidence for an interferon response induced by tumor stroma interaction in a subset of breast cancer"
- 17:35 Fischer, M., Freiburg:**
"Short Term Culture Of CD34+ Human Cord Blood Cells Yields Large Numbers of defined Precursors Without Pertubing The Original Differentiation Profile Of Simultaneously Maintained Short-term Repopulating Cells"
- 18:00 Paul Basset Award (500 €) for the best presentation by a young scientist (≤ 35 years) and Concluding Remarks (R. Mertelsmann)**

18:15 Meeting adjourns
