Clinical and Experimental Oncology**

Friday, May 27<sup>th</sup>, 2005

Zentrum für Lehre und Forschung  
At University Hospital Basel

UNI  
BASEL

**08<sup>45</sup> Registration and Refreshments**

**Session I Signalling Defects**

Chair: Ch. Moroni, H. Veelken

09<sup>20</sup> Welcome and Introduction (Ch. Moroni)

09<sup>30</sup> R. Skoda, Basel

A somatic gain of function mutation in Jak2 is frequently found in patients with myelo-proliferative disorders

09<sup>50</sup> M. Gasperowicz, Freiburg  
Phenotypical analysis of TLE3 deficient mice

10<sup>10</sup> M. Wymann, Basel  
PI3 Kinase and Cancer

10<sup>30</sup> G. Lapouge, Strasbourg  
New properties of a C-terminal truncated androgen receptor detected in hormone refractory prostate cancer

**10<sup>50</sup> Coffee Break**

**Session II Diagnosis and Therapy**

Chair: R. Hermann, P. Dufour

11<sup>10</sup> M. Wilt, Strasbourg  
Gene expression profiling in thyroid tumors

11<sup>30</sup> C. Gaiddon, Strasbourg  
Ruthenium(II)-derived organometallic compounds induce cytostatic and cytotoxic effects on mammalian cancer lines through p53-dependent and p53-independent mechanisms

11<sup>50</sup> L. Soler, Strasbourg  
3D modelling of small animals abdominal tumours and organs from in vivo micro-CT scan

12<sup>10</sup> C. Bertinetti, Freiburg  
The idiotype vaccination program for indolent B cell lymphoma: Dissection of immune responses and interim experience from a phase II trial in "watch and wait" situation

12<sup>30</sup> Ch. Rochlitz, Basel  
A Clinical study of low-intensity, intermediate-frequency, alternating electric fields in the treatment of advanced solid tumors

**12<sup>45</sup> Lunch**

### Session III Basic mechanisms

Chair: M. Wymann, J.P. Bergerat

- 14<sup>15</sup> J. Schwaller, Basel  
Understanding molecular genetics of acute leukemia
- 14<sup>35</sup> U. Martens, Freiburg  
Telomere checkpoint and chromosomal instability in colon cancer cells
- 14<sup>55</sup> P. Schär, Basel  
Fine tuning of DNA base excision repair in the maintenance of genome stability
- 15<sup>15</sup> A. Spyridonidis, Freiburg  
Stem Cell Plasticity: Fact or Fiction?
- 15<sup>35</sup> **Coffee Break**

### Session IV Tumor Progression

Chair: Ch. Rochlitz, R. Mertelsmann

- 15<sup>55</sup> M.C. Rio, Strasbourg  
More about ST3 function in primary tumor invasion
- 16<sup>15</sup> L. Kopfstein, Basel  
Modulating angiogenesis and lymphangiogenesis during tumor progression
- 16<sup>35</sup> T. Lohmüller, Freiburg  
Involvement of the Lysosomal Cysteine Peptidase Cathepsin L in Progression of Epidermal Carcinomas
- 16<sup>55</sup> O. Vasiljeva, Freiburg  
Role of cysteine cathepsins in mammary cancer progression
- 17<sup>15</sup> **Paul Basset Award** (500 €) for the best presentation by a junior investigator ( $\leq 35$  years).
- 17<sup>30</sup> **Meeting adjourns**
